You: Can I download courses on my laptop?

Assistant: Based on the provided context, **LearnForge** does not currently support downloading courses for offline viewing on laptops** through the desktop web version.

- **[FAQ-07]** (marked **[OUTDATED]**) states that offline downloads are only available via the **mobile application** for eligible courses, and the desktop web version lacks this functionality.
- **[TICKET-15]** confirms that older help articles (e.g., "Offline Learning Guide") contain outdated instructions and that offline downloads are **not supported on laptops** as of the current product state.

If you relied on misleading documentation for your purchase, you may request a refund review by providing the outdated article URL and your order number, as referenced in **[TICKET-15]**. For now, offline access is limited to the mobile app for supported courses.

Ask a question about LearnForge...

You: What's the refund policy?

Assistant: Here's LearnForge's **current refund policy** based on the provided context:

For Individual Course Purchases:

- **Standard refund window: 14 days** from purchase, provided the course has **not been substantially consumed** (e.g., minimal viewing/completion) [FAQ-02].
- **Exceptions:**
 - If a **technical issue** prevented access, Support may review a refund even outside the 14-day window [FAQ-02].
 - **Promotional products, bundles, or third-party purchases** may have separate terms [POLICY-02, FAQ-02].

For Subscriptions:

- **No automatic refunds** after renewal, even if canceled within 14 days [TICKET-08, POLICY-02].
- **Cancellation** stops future renewals but retains access until the end of the current billing period [POLICY-02].

Refund Process:

- Submit a request via Support with your **account email, order number, and relevant details** (e.g., consumption status, technical issues) [POLICY-02, FAQ-02].
- **Multiple requests for the same transaction** will be denied [FAQ-02].

Important Notes:

- The **14-day window** applies to **individual courses only**—subscriptions and promotions may differ [TICKET-08, FAQ-12].
- **Older documentation** (e.g., 7-day or 30-day claims) may be outdated or promotional—verify terms at purchase [POLICY-02, TICKET-03].

For specific cases (e.g., discounts, technical issues), contact Support with proof (e.g., screenshots of promotional terms) for review [TICKET-03, FAQ-12].

You: How do I reset my password?

Assistant: To reset your password on LearnForge, follow these steps based on the most relevant and up-to-date guidance:

1. Go to the **LearnForge sign-in page** and select "Forgot password?".
2. Enter the **email address** linked to your account.
3. Check your inbox (including **spam, promotions, or junk folders**) for a password-reset email from LearnForge. If you don't see it, search for "LearnForge" in your mailbox.
4. Click the **secure link** in the email to reset your password. Note that these links are **temporary and may expire**—request a new one if needed [\[FAQ-05\]](#).

Special Cases:

- If you **registered via Google, Apple, or another social login**, you may not have a LearnForge password. Instead, use the **social sign-in option** [\[FAQ-05\]](#).
- If you **no longer have access to the email** on your account, contact **LearnForge Support** with proof of ownership (e.g., transaction details) for verification [\[POLICY-07\]](#).

Note: The provided [\[FAQ-05\]](#) is marked as [\[OUTDATED\]](#), but it remains the most detailed available guidance for password resets. For security-related issues (e.g., compromised accounts), follow [\[POLICY-07\]](#) (effective December 2025).

You: I was charged twice for a course

🚩 **Escalated:** I'm not confident I can fully resolve this. A human agent will review your case. Here's what I found so far: Based on the provided context, here's how to address your ****duplicate charge**** for a course:

1. If one charge is pending and the other is completed:
 - The pending charge is likely a **temporary authorization** (e.g., failed retry or system retry) and will typically be released by your bank. **No action is required** unless the pending charge finalizes [\[TICKET-02\]](#).
 - If the pending charge becomes a completed charge, contact **LearnForge Support** immediately with **both transaction references** for investigation.
2. If both charges are completed:
 - This is a confirmed duplicate charge. Submit a request to **LearnForge Support** with:
 - Your **order number** (if available).
 - **Transaction details** (dates, amounts, and bank references).
 - Confirmation that you only intended to purchase the course **once** [\[TICKET-02\]](#).
3. Next Steps:
 - **Do not cancel or repurchase** the course to avoid complications (e.g., duplicate enrollments or lost discounts).
 - Support will review the transactions and process a **refund** for the duplicate charge if valid [\[TICKET-02, FAQ-12\]](#).

Note: If the duplicate charge stems from a **promotional bundle or subscription**, additional terms may apply—provide all relevant details to Support [\[POLICY-02, FAQ-02\]](#).
